

Competence statement

Who checks us, who does the work, and how you can verify it.

Fire safety evidence is only as strong as the person behind it. This statement sets out how the competence of My Fire Safety Limited is independently checked, who carries out the work and what insurance stands behind it, so that you can show how you chose your assessor. Every certification below can be checked directly with the body that issued it.

Independent certification and memberships

BAFE SP205

Independent third-party certification of Life Safety Fire Risk Assessment competence and process. Our BAFE registered organisation ID is 302942.

NSI Gold

Independent certification and audit to a high standard.

SafeContractor

Approved by SafeContractor, an SSIP member scheme that assesses health and safety competence.

FIA

Membership of the Fire Industry Association.

FPA

Recognised by the Fire Protection Association.

IFE

Affiliation with the Institution of Fire Engineers.

IFSM

Member of the Institute of Fire Safety Managers.

BAFE SP205 is the scheme for Fire Risk Assessment providers. It requires assessor competence to be evidenced and reviewed at intervals of no more than 36 months, and every assessment to be checked and signed off by a separate, designated Validator before it reaches the client. Source: BAFE.
